

They are immortal even after they die.

They are deathless even after being dead.

They command even after they die.

Die and he has also been.

They are eternal even after death.

They are immortal even after they die.

They are immortal even after they die.

They are alive even after being dead.

They are deathless even after being dead.

They are still in command after death.

They command even after they die.

They command even after they die.

Die and he has also been.

Even when they die, they are still immortal.
